Instructions:
1. Draw diagram where necessary.
2. Figures to the right indicate full marks.
3. Write legibly.

1. Discuss hypovolemic shock in detail.

2. Classify burns, and discuss management of patient having 15% scald burns.

OR

Define gangrene. Discuss clinical features and management of gas gangrene.

3. Describe in short (any three)

   a. Tracheostomy
   b. Carbuncle
   c. Extradural haemorrhage
   d. Dermoid cyst
   e. Lucid interval
SECTION - I

2. Define swelling. Clinical classification of lipoma, and its management; with its complication. OR
Classify burns. Discuss management of 30% flame burns.
3. Write short notes: (any three of following) 12
   a. Dermoid cyst
   b. Callous ulcer
   c. Ramula
   d. Carbuncle
   e. Cold abscess

SECTION - II

1. Enumerate various blood components and describe complications of whole blood transfusion. 14
2. Discuss management of patient having traumatic hypovolemic shock. 14
OR
Describe Aetiopathology, clinical features and treatment of tetanus.
3. Write short notes: (any three) 12
   a. 2% xylocaine
   b. Rodent ulcer
   c. Actinomyosis
   d. Universal precautions for HIV
   e. Tracheostomy
Nootan Dental College & Hospital, Visnagar
Preliminary Examination
Oct.- Nov.- 2009
Sub- General Surgery

Date:- 23/09/2009
Marks: 100

Instructions.
1. Use separate answer book for each section
2. Draw diagram where necessary
3. Figure to the right indicate full marks
4. Write legibly

SECTION - I

1. Describe types, clinical features and management of gangrene

2. Define nosocomial infection. Discuss its prevention and management

   OR

Discuss hypovolemic shock in details.

3. Describe in short (any three)

   a. sialolithiasis
   b. tracheostomy
   c. tension pneumothorax
   d. carbuncle
   e. extradural haemorrhage
   f. thyroglossal cyst

SECTION - II

1. Describe types and management of facio-maxillary injuries

2. Classify burns. Discuss management of an adult patient with 40% burns.

   OR

Describe different methods of arresting hemorrhage. Discuss indications, and complications of blood transfusion.

3. Write short notes (any three)

   a. Autoclave
   b. Tetany
   c. Trigeminal neuralgia
   d. Actinomycosis
   e. Cold abscess
   f. Dermoid cyst
SECTION- I

Q-1 DESCRIBE IN DETAIL :: CLASSIFICATION, CAUSES, CLINICAL FEATURES AND MANAGEMENT OF VARIOUS TYPES OF SHOCK ?

Q.2 SHORT NOTES (ANY THREE)
(18)
(A) DEFINE HEMORRHAGE AND TYPES OF IT ?
(B) GANGRENE IN DETAIL ?
(C) INDICATION, PROCEDURE AND COMPLICATIONS OF TRACHEOSTOMY ?
(D) DESCRIBE IN DETAIL - TETANUS AND ITS TREATMENT ?
(E) DEFINE WOUND AND ITS CLASSIFICATION ?

Q.3 SHORT ANSWERS
(12)
(A) PATHOGENS PRODUCING GONORRHEA ?
(B) DEFINE TOXEMIA ?
(C) DEFINE ULCER ?
(D) DEFINE FISTULA ?
(E) WHAT IS SEPTICEMIA ?
(F) DEFINE SINUS ?

SECTION-II

Q.4 DESCRIBE IN DETAIL :: SURGICAL PROBLEMS ASSOCIATED WITH NERVOUS SYSTEM WITH SPECIAL REFERENCE TO THE PRINCIPLE OF PERIPHERAL NERVES INJURIES, THEIR REGENERATION AND PRINCIPLE OF TREATMENT ?

Q.5 SHORT NOTES (ANY THREE)
(18)
(A) SURGICAL ANATOMY OF THYROID ?
(B) DIFFERENT TYPES OF SWELLING OF THE JAW ?
(C) THYROGLOSSAL CYST AND ITS TREATMENT ?
(D) DESCRIBE STERILISATION IN DETAIL ?
(E) GENERAL PRINCIPLES OF FRACTURES AND TREATMENT ?
Q.6 SHORT ANSWERS ONLY

(A) FACIAL PALSY?
(B) NAME ALL CRANIAL NERVES?
(C) DIFFERENT TYPES OF BIOPSIES ROUTINELY DONE IN SURGICAL PRACTICE?
(D) COLD ABCESS?
(E) DIFFERENT TYPES OF DRAINS? NAME ONLY
(F) WHAT IS ERYSEPELS?
Q.1 CLASSIFY VARIOUS TYPES OF WOUNDS? DESCRIBE WOUND (20) 
HEALING , REPAIR, TREATMENT OF WOUNDS, MEDICO-LEGAL 
ASPECTS OF ACCIDENTAL WOUNDS AND COMPLICATIONS 
OF IT?

Q.2 SHORT NOTES (ANY THREE) (18)
(A) DESCRIBE ACTINOMYCOSIS?
(B) DESCRIBE VINCENT'S ANGINA?
(C) DESCRIBE GANGRENE IN DETAIL?
(D) PREVENTION AND PRECAUTION FOR H.I.V AND 
HEPATITIS-B?
(E) DEFINE ULCER AND WOUND, AND TYPES OF ULCERS 
IN DETAIL?

Q.3 DEFINE IN SHORT (12)
(A) WHAT IS CELLULITIS?
(B) CAUSES OF INFLAMATION?
(C) PATHOGENS PRODUCING SYPHILIS?
(D) WHAT IS CANCRUM ORIS?
(E) DEFINE SINUS?
(F) DEFINE FISTULA?
Instructions.
1. Use separate answer book for each section
2. Draw diagram where necessary
3. Figure to the right indicate full marks
4. Write legibly

SECTION - I

1. Describe the pathophysiology, clinical features, and treatment of septic shock. 

2. Enumerate the causes of ulcers over tongue. Discuss Aetiopathology and management of carcinoma of tongue.

3. Describe in short (any three)
   a. carbuncle
   b. trigeminal neuralgia
   c. keloid
   d. lucid interval

SECTION - II

4. Define nosocomial infection, and discuss its management.

5. Discuss pathophysiology, clinical features and management of primary thyrotoxicosis.

6. Write short notes (any three)
   a. catheter
   b. Tetany
   c. Cold abscess
   d. Trophic ulcer
Q1. **Describe burns and scalds management of a patient with burns in detail.**

Q2. **Define sinus, fistula, abscess, toxaemia, septicemia, give details of septicemia and gas gangrene, management of it.**

Q3. **Describe in detail (any 3)**

   (A) Premalignant conditions of the skin.

   (B) Epitheloma.

   (C) Neurofibroma.

   (D) Prevention of HIV.

   (E) Vincent’s angina.
SECTION - I

Q-1 Describe in detail: Classification, Causes, Clinical features and management of various types of shock?

Q-2 Short Notes (Any Three)
1. Describe Actinomycosis?
2. Define wound and its classification?
3. Gangrene in detail?
4. Describe Vincent's angina?
5. Indication procedure and complications of TRACHEOSTOMY?

Q-3 Short Answers
1. Define ULCER?
2. Organism Producing SYPHILIS?
3. Define FITULA?
4. Define SINUS?
5. What is SEPTICEMIA?
6. What is Cellulitis?
SECTION - II

Q-4 Classify various types of wounds? Describes wound healing, repair, treatment of wounds, medico-legal aspects of accidental wounds and complication of wounds?

Q-5 Short Notes (Any Three)
1. Prevention and precaution for HIV and HEPATITIS - In General?
2. Surgical Anatomy of Thyroid?
3. Different types of swelling of Law?
4. Thyroglossal cyst and its Treatment?
5. Describe sterilisation in detail?
6. Define Hemorrhage and types of it?

Q-6 Short Answers
1. Causes of Inflammation?
2. Organism prodring gonorrhea?
3. Cold ABCESS?
4. Different types of Drainage?
5. Name all Cranial nerves?
6. Facial Palsy?
Q-1 Define Ulcer, its type and treatment of (TUBERCULOUS) Ulcer?  

Q-2 Short Notes (Any Three)  
1. ACTINOMYCOSYS in details?  
2. VINCENT'S ANGINA?  
3. GANGRENE in detail?  
4. COLD ABCESS and its treatment?  
5. DEFINE WOUND and its type?  

Q-3 Short Questions.  
1. Causative Organism of syphilis?  
2. What is A.I.D.S.?  
3. Define Carbuncle?  
4. What is Stye?  
5. Define toxemia?
IIIrd B.D.S. 2nd Internal - July 12

Nootan Dental Collage
General Surgery

Marks : 50

Q-1 :- Define Shock ? treatment and clinical Features of septic shock ? {20}

Q-2 :- Short -notes (Any three) {18}

{A} Define Gangrene ?
its treatment in details ?

{B} Define facial palsy ?
its treatment in detail ?

{C} Describe carotid body tumour ?
its C/f and treatment ?

{D} Define Trigeminal neuralgia ?
its treatment in details ?

{E} Define cold abscess ? its
C/f and treatment in details ?

Q-3 :- Short Questions {12}

(1) Define fistula ? Sinus ?

(2) Define ulcer ? Would ?

(3) Define boil and abscess ?

(4) Name of total Cranial nerves ?

(5) Define sabecious cyst ? epidermoid ?

(6) Define neurotmesis ?

The End
Q-1 Define shock ? Its classification and Treatment of Hemorrhagic shock ?

Q-2 Short Notes (Any Three)
1. Thyroglossal Duct & Treatment ?
2. TRACHEOSTOMY, Indications and Care of it ?
3. FACIAL PALCY ? Its Treatment.
4. Types of HAEMORRHAGE & Its Treatment ?
5. GAS GANGREN in Detail ?

Q-3 Short Questions
1. Define Ulcer & Wound.
2. Define Neurotmesis.
3. Define Fistula and Sinus
4. Causatine organisum of COLD ABCESS ?
5. Define BOIL, ABCESS ?
6. Name of Total CRANIAL NERVES ?
3rd yr. B.D.S.
GENERAL SURGERY/2nd INTERNAL EXAM.
N.B. College, Visnagar. Total Marks: 50

Q. 1
Define ULCER? IIa type and treatment of T.B. ULCER? (20)

Q. 2
SHORT NOTES! (Any three) - (24)
A. Define Herniation? IIa type.
C. Types of cleft lip and cleft palate.
D. Complication of fracture?
E. Type of wound? IIa definition.

Q. 3: SHORT QUESTIONS: - (6)
A. Define FISTULA? (II)
B. Name organism producing syphilis?
C. All cranial nerves? Name.
D. Full form of A.I.D.S.? (II)
E. Define pyelonephritis?
F. Veincare vein? Define!
3rd B.D.S. – 2012 (JUNE)
Nootan Dental College
GENERAL SURGERY

Total Marks 100

SECTION – 1

Q-1 Define Hemorrhage ? Type of its ? Treatment of septic shock ? 20

Q-2 Short Notes (Any Three) 18
   (a) Define gangrene, its type and treatment of dry gangrene ?
   (b) Facial Palsy and its treatment ?
   (c) Carotid body tumour and treatment ?
   (d) Aortic Aneurysm and its treatment ?
   (f) Trigeminal Neuralgia ? and its treatment ?

Q-3 Short Questions 12
   (a) Define Fistula and Sinus ?
   (b) Define Ulcer and Wound ?
   (c) Define boil ?
   (d) Name all Cranial nerves ?
   (e) Virus producing A.I.D.S. ?
   (f) Define Neurotmesis ?
SECTION - II

Q-4 General Principals of Fracture and treatment of its ? Complications of Fracture ?

Q-5 Short Notes ( Any Three )
   (a) Define cold abscess ? And its treatment ?
   (b) Define Neuropraxia ? Its treatment ?
   (c) Type of drains used in surgery ?
   (d) Define Actinomyositis and its treatment ?
   (e) GONORRHEA and its treatment ?

Q-6 Short Questions
   (a) Define “ABCESS” ?
   (b) Hormones releating from Thyroid gland ?
   (c) Define “LIPOMA” ?
   (d) Define pyeloderma ?
   (e) Define sableions cyst ?
   (f) Define Sterilisation ?
Que-1  Def. Ulcer & Wound? Diff type of ulcers & treatment of various ulcer?  20

Que-2  (Any three)  18
1.  Def. Haemorrhage & types of it?
2.  Gas gangrene in detail?
3.  Def. Shock & types of Shock?
4.  Trachcostomy Indications of it?

Que-3  12
1.  Def. Fistula & Sinus?
2.  Def. boil & Abscess?
3.  Full from of AIDS?
4.  Organism producing syphilis?
5.  Name of all cranical nerves?
6.  What is Stye?
Q. 1 Define Shock? Its type and Treatment of septic shock?

Q. 2 Short. Notes (Any Three)
   A. Define Gangrene? Its type and Treatment?
   B. Tracheostomy: Its indication and care of it?
   C. Prevention and prevention spreading HIV and Hepatitis?
   D. Type of Ulcer? Treatment of various Ulcer?
   E. Define Neurotmesis? Its treatment?

Q. 3 Short Questions:
   A. Define Sinus?
   B. Define Abscess?
   C. Define Hemorrhage?
   D. Define Subluxation?
   E. Define Hydrocele?
   F. Define boil?
Narsinhbhai Patel Dental College & Hospital, Visnagar
3rd Year B.D.S.
Third Internal Examination
GENERAL SURGERY

[ TOTAL MARKS: 100 ]

SECTION-I

Q.1
Define Hemorrhage & its type and treatment of it in detail?

Q.2
SHORT NOTES (ANY THREE)

A. Describe facial palsy and its treatment?
B. Describe neuroplexy and its treatment in detail?
C. Describe trigeminal neuralgia & its treatment in detail?
D. Prevention and precautions of spreading HIV and Hepatitis?
E. Acromegaly in detail with its treatment

Q.3
Short answers:

A. Define boil & abscess?
B. Define "cold abscess"?

Q.4
C. Name all cranial nerves?
D. Organisms producing syphilis & gonorrhea?
E. Define sinuses & fistula?
SECTION II

Q. 4: Define shock & its type? Treatment of Anaphylactic shock

Q. 5: SHORT ANSWERS (any three)
A) Define wound & its type?
B) Carcinoma oris & in detail?
C) Describe in detail Tetanus and its treatment?
D) Describe Gangrene & its treatment?
E) Indication, procedure and complications of "TRACHEOSTOMY"?

Q. 6: SHORT ANSWERS
A) Define Septicemia?
B) Define Appendicitis?
C) Nine Quadrants of Anterior Abdominal wall?
D) Describe Pyomyx?
E) Define Lipoma?
F) Describe "SABRIOUS CYST"?

ALL THE BEST.
AP-5277  Seat No._______

Third Year B. D. S. Examination
September/October - 2009
General Surgery

Time : 3 Hours] [Total Marks : 80

Instruction: Write each section in **separate** answer paper.

**SECTION - I**

1. Define Cellulitis, Gangrene, Sinus, Fistula and Cancrum oris. Describe any two in detail.  
   14

   14

3. Write short notes: (any two) 
   (1) Ranula
   (2) Sterilization technique
   (3) Thyroglossal cyst. 
   12

**SECTION - II**

   14

   14

6. Write short notes: (any two) 
   (1) Tetanus
   (2) Actinomycosis
   (3) Dental cyst. 
   12

AP-5277] [ 100 ]
MAU-4752 Seat No._______
Third Year B. D. S. Examination
March/April – 2009
General Surgery

Time: 3 Hours] [Total Marks: 80

Instructions: (1) Figures to the right indicate full marks.
(2) Draw diagram wherever necessary.
(3) Use separate answer book for each section.
(4) Write legibly. Illegible writing decreases the value of answer.

SECTION - I

1 Describe the types of wounds, different types of wound healing and factors affecting it

2 Describe in nutshell the sterile precaution regarding the theatre, instruments, operating staff and the patient.

OR

2 Describe different types of hemorrhage and method to estimate the blood loss. Describe different methods to stop the hemorrhage.

3 Write short notes on: (Any three) 12
   (a) Gangrene
   (b) Cellulitis
   (c) Dentigerous cyst
   (d) Spreading Ulcer
   (e) Sialoadenitis.

MAU-4752] [Contd...
SECTION - II

4 Describe the aetio-pathogenesis, clinical features and treatment of tetanus. 14

5 Describe the ABC of resuscitation of acutely injured patient with maxillofacial injury. 14

OR

5 Describe the differential diagnosis of cervical swelling. 14

6 Write short notes on: (Any three) 12
   (a) AIDS and dentist
   (b) Local Anaesthesia
   (c) Keloid
   (d) Biopsy
   (e) Xerostomia.
Third Year B.D.S. Examination
October / November – 2010
Gen. Surgery

Time: 3 Hours] [Total Marks: 80

SECTION – I

1. Discuss differential diagnosis of midline neck swelling and describe in detail management of primary thyrotoxicosis. 14

2. Classify Burns. Discuss management of 25 years female patient with 30% burns. 14

3. Write about any two:
   (a) Ranula
   (b) 2% xylocaine
   (c) Concrum oris. 12

SECTION – II

4. Define wound and its classification. Discuss factors affecting wound healing. 14

6702] 1 [Contd...
5 Discuss management of a patient with Road Traffic Accident. Discuss in detail management of Extra Dural Hematoma.

6 Write in short about any two:
   (a) Syphilis
   (b) Tracheostomy
   (c) Disinfection.
Third Year B.D.S. Examination
March / April – 2010
General Surgery

Time : 3 Hours] [Total Marks : 80

SECTION-I

1 Describe indications of blood transfusion.
   Describe different blood fractions of complications of blood transfusion.

2 Describe aetiopathology, clinical features and treatment of tetanus.

3 Write in short about any two:
   (a) Sialoadenitis
   (b) Biopsy
   (c) Tracheostomy

SECTION-II

4 Describe differential diagnosis of neck swellings.

5 Discuss in detail management of an adult patient with 50% accidental flame burns.
6 Write in short : (any two)
   (a) Causes of persistent sinus/fistula
   (b) Varicose ulcer
   (c) Autoclaving

SECTION I

14 Describe the location of blood vessels
   involved in different clinical symptoms.

SECTION II

14 Write in short answer any two:
   (a) Contraceptives
   (b) Infusion
   (c) Tractionotomy

D-2977] 2 [ 100 ]
SECTION - I

1. Describe in detail: Classification, causes, clinical features and management of various types of shock.

2. Describe any three: (short notes)
   (a) Wounds: Classification, Healing, Repair, Treatment.
   (b) Gangrene in detail and it's treatment.
   (c) Preventions and precautions to be taken for HIV and Hepatitis-B spreading.
   (d) Trigeminal Neuralgia in detail.
   (e) Tetanus in detail.

3. (a) What is Ulcer?
   (b) Define Haemorrhage.
   (c) Cold Abscess: Causative Organism.
   (d) Describe Sinus and Fistula.
   (e) Describe Actinomycosis.
   (f) Bacteria causing Vincent's angina.

PF-5552] 1 [Contd....
SECTION - II

4 Describe Burns in detail, Classification, treatment etc.

5 Short notes : (any three)  
(a) General Principles of fractures, clinical presentation and treatment.
(b) Anomalies of development of face.  
   Types of cleft lip.
(c) Describe Asepsis, antiseptics, sterilisation.
(d) Thyroglossal cyst : Describe it and treatment of it.
(e) Premalignant condition of skin.

6 Short questions :  
(a) Full form of A.I.D.S.
(b) Hepatitis-B is spread from Blood (Yes/No)
(c) Define Wound.
(d) Describe Biopsy.
(e) Define Cyst.
(f) What is Leucoplakia ?
1. Describe in detail:
   Classification, causes, clinical features of management of various types of shock.

2. Describe any three (short notes)
   (a) Wounds: Classification, Healing, Repair, Treatment
   (b) Gangrene in detail and its treatment.
   (c) Preventions and precautions to be taken for HIV and Hepatitis-B spreading.
   (d) Trigeminal Neuralgia in detail.
   (e) Tetanus in detail.

3. (a) What is ulcer?
   (b) Define Haemorrhage.
   (c) Cold Abcess - Causative organism
   (d) Describe sinus and Fistula
   (e) Describe actinomycosis
   (f) Bacteria causing vincent’s angina.
SECTION - II

4 Describe burns in detail, classification, treatment etc.

5 Short notes (any three)
   (a) General principles of fractures, clinical presentation and treatment
   (b) Anomalies of development of face. Types of cleft lip.
   (c) Describe - Asepsis, Antiseptics, Sterilization.
   (d) Thyroglossal cyst : Describe it and treatment of it.
   (e) Premalignant condition of skin.

6 Short questions :
   (a) Full form of A.I.D.S.
   (b) Hepatitis-B is spread from Blood (Yes/No)
   (c) Define wound.
   (d) Describe Biopsy.
   (e) Define cyst.
   (f) What is leucoplakia.
K-9722

Seat No._______

Third Year B. D. S. Examination
June / July – 2012
General Surgery

Time : 3 Hours] [Total Marks : 70

SECTION - I

1 Describe in detail - Definition. 14
Classification, Causes, Clinical features and management of various types of shock.

2 Describe any three : (short notes) 15
(a) Facial palsy ? It's causes and treatment in detail ?
(b) Describe gas gangrene and its treatment.
(c) Define ulcer. Its type and treatment of T.B.ulcer ?
(d) Tracheostomy, its indication and care of it.
(e) Preventions and precaution to be taken for HIV and Hepatitis spreading.

3 Short questions : 6
(1) Define Wound.
(2) Define haemorrhage.
(3) Cold abcess : Causative organism.
(4) Define boil.
(5) Define Fracture.
(6) Define Fistula.

K-9722] 1 [Contd...
SECTION - II

4 Describe General Principle of Fracture and Management of it. Its complications in detail. 14

5 Short notes : (any three) 15
   (a) Anomalies of development of face, types of cleft lip.
   (b) Describe asepsis, antiseptic sterilization.
   (c) Thyroglossal cyst. Describe it and treatment of it.
   (d) Premalignant condition of skin.
   (e) Define nerve injury and define Axonotmesis neuropraxia.

6 Short questions : 6
   (1) Define cyst.
   (2) What is leucoplakia?
   (3) Define Biopsy.
   (4) Describe cranial nerves name.
   (5) Causative organism of syphilis.
   (6) Full from of A.I.D.S.
JI-672

Third Year B. D. S. Examination
October / November – 2012
General Surgery

Time : 3 Hours] [Total Marks : 70

SECTION - I

1 Describe ulcer – its classification and treatment of varicose ulcer. 14

2 Short notes : (any three) 15
   (a) Wound; its classification – Treatment.
   (b) Trigeminal neuralgia in detail.
   (c) Tetanus toxoid in detail.
   (d) Tracheostomy operative procedure.
   (e) Define Neurotmesis in detail.

3 (i) Define Haemeorrhage. 6
   (ii) Define Shock.
   (iii) Define Sinus
   (iv) Organism producing actinomycosis.
   (v) Define subluxation.
   (vi) Define Dislocation of joint.

SECTION - II

4 Describe Burns in details and treatment of 30% burns of male 25 years old with 50 kg weight. 14

JI-672] 1 [Contd...
5  Short notes: (any three)
   (a) Anomalies of development of face types of cleft lip.
   (b) Anatomy of thyroid gland.
   (c) Wound Healing in detail.
   (d) Pre-malignant condition of skin.
   (e) Treatment of cold abscess.

6  Short questions:
   (i) Name all cranial nerves.
   (ii) Define cyst.
   (iii) What is Anti-D in blood grouping?
   (iv) Define Fistula.
   (v) Organism producing syphilis.
   (vi) What is Boil?
SECTION - I

1 Describe in detail:
   Classification, causes, clinical features and
   management of various types of "SHOCK".

2 Short notes: (any three)
   (a) Trigeminal Neuralgia and its treatment
   (b) Describe in detail: Tetanus and its treatment
   (c) Indication, procedure and complication of
       "Tracheostomy"
   (d) Define wounds and its classification.
   (e) Facial palsy and its treatment.

3 Short questions:
   (a) Define cyst.
   (b) What is Boil?
   (c) Name all cranial nerves.
   (d) Define fistula.
   (e) Define ulcer.
   (f) Define sinus.

K-4162] 1 [Contd....
SECTION - II

4 Describe Ulcer, Its classification and treatment of vericose ulcer.

5 Short notes : (any three)
   (a) Wounds : Its classification, treatment
   (b) Define neurotmesis in detail
   (c) Premalignant conditions of skin
   (d) Anatomy of thyroid gland
   (e) Describe gas gangrene and its treatment.

6 Short questions :
   (a) Cold abcess - Causative organism
   (b) Define fracture.
   (c) Define Haemorrhage.
   (d) What is Leukoplakia ?
   (e) Define subluxation.
   (f) Full name of A.I.D.S.
Q. 1
Define Haemorrhage & its type and treatment of it in detail?

Q. 2
SHORT NOTES (ANY THREE)
A. Describe Facial palsy and its Treatment?
B. Describe Neuropraxia and its treatment in detail &
   its Treatment in detail?
C. Describe Trigeminal Neuralgia
   its treatment in detail?
D. Prevention and precautions of spreading HIV and Hepatitis?
E. Achromyconia in detail with its treatment &

Q. 3
Short Answers
A. Define boil & Abscess?
B. Define "Cold abscess"?

C. Name all cranial nerves?
D. Organisms producing Syphilis &
   Gonorrhea?
E. Define sinuses & fistula?
SECTION - II

Q. 4: Define shock & its type?
Treatment of Anaphylactic shock?

Q. 5: SHORT NOTES (ANY THREE)
A. Define wound? Its type?
B. Cancrum oris? In detail?
C. Describe in detail TETANUS and its treatment?
D. Describe Gonococcal? Its treatment?
E. Indication, procedure and complications of "TRACHEOSTOMY"?

Q. 6: SHORT ANSWERS
A. Define Septicema.

B. Define Appendicitis ?
C. Why nine quadrants of Abdominal wall?
D. Describe Pyomyositis?
E. Define Lipoma ?
F. Describe "Spleenous cyst" ?

ALL THE BEST.
SECTION - I

1. Describe General principles of FRACTURE and management of its complications in detail.  

2. Short notes: (any three)  
   (a) Anomalies of development of FACE, types of CLEFT LIP.  
   (b) Describe asepsis, antiseptic sterilization  
   (c) Thyroglossal cyst - Describe it and its treatment.  
   (d) Tracheostomy - its indication and care of its.  
   (e) Prevention and precaution to be taken for spreading HIV and Hepatitis.  

3. Short questions:  
   (i) Define Wound.  
   (ii) Define Haemorrhage.  
   (iii) Define Boil.  
   (iv) Define Fracture.  
   (v) Define Fistula.  
   (vi) Define sinus.
SECTION - II

4 Describe Burns in detail, treatment of 30% burns of male 25 years old with 50 kg weight.

5 Short notes : (any three)
   (a) Facial Palsy. Its causes and treatment in detail.
   (b) Describe gas gangrene and its treatment.
   (c) Pre-malignant condition of skin.
   (d) Treatment of cold-abcess.
   (e) Define Ulcer. Its type and treatment of T.B. ulcer.

6 Short questions :
   (i) Define Cyst.
   (ii) Define ABCESS.
   (iii) What is Anti-D ?
   (iv) Organism producing Syphilis
   (v) Define Subluxation ?
   (vi) Define Pyometritis ?

Q-1 Define ulcer – its classification and treatment of varicose ulcer ?  14

Q-2 Short Notes (Any Five)  25

(1) Gangrene ? its type and Treatment ?
(2) Haemorrhage in details ?
(3) Facial nerve palsy ?
(4) Autoclave ?
(5) Trigeminal neuralgia ?
(6) Subluxation and dislocation of joint ?
(7) syphilis and its Treatment ?

Q-3 Short Questions

(1) Sinus
(2) Fistula
(3) Boil
(4) Abcess

(P.T.O)
(5) Organism producing Gonorrhea

(6) Cold abcess

(7) Stye ?

(8) Organism producing syphilis

(9) Varicose vein

(10) All cranial nerves.

(11) Ludwig’s angina ?

----- ALL THE BEST ----
SECTION : I

Q-1 Long Essay
Describe ‘TRACHEOSTOMY’? Indications procedure, complication and care of its in details?

Q-2 Short Notes (Any Five)
1. Trigeminal nerve and neuralgia
2. Facial nerve palsy?
3. Autoclave?
4. Cancrum Oris?
5. Ludwig’s angina?
6. Prevention and precaution for HIV and HEPATITIS?
7. Haemorrhage in details?

Q-3 Short Questions
1. Trigeminal neuralgia is also known as
2. Name 8th cranial nerves
3. Name all branches of facial nerves?

4. Organism producing Gonorrhea
5. Organism producing Tuberculosis
6. Organism producing syphilis
7. Cold abscess?
8. Define sinus?
9. Define Fistula?
SECTION : II

Q-4 Define General principals of fracture its complications and Treatment ?

Q-5 Short Notes (Any Five)

(1) Neuropraxia ?
(2) Sialolithiasis
(3) Gangrene in detail ?
(4) Define wound and its Classification ?
(5) Tetanus
(6) Ulcer

Q-6 Short Questions

(1) Define Toxemia ?
(2) Define Septicemia ?
(3) Define Axonotmesis ?
(4) Boil ?
(5) Pyonychia ?
(6) Organism producing Actinomycosis _________
(7) AIDS ?
(8) Hemophilia is Caused by following deficiency _________
(9) Name any three chemical steniliration agents.
(10) Organism producing Tetanus _________
(11) varicose Vein define.
