**Third Year B. D. S. Examination**

**June / July - 2017**

**General Surgery**

**Time : 3 Hours]**

**[Total Marks : 70**

**SECTION - I**

- 1**    Aetiology, Pathology, Clinical Features, **14**  
Investigation and Management of Carcinoma  
of Tongue.
  
- 2**    Short notes : (any three) **15**
  - (a) Types of Cleft Lip and Management of Cleft Lip.
  - (b) Dental Cyst
  - (c) Describe gas gangrene and its management.
  - (d) Different types of Biopsy and describe Excision Biopsy in detail.
  - (e) Causes of Hypothyroidism and Management of Multinodular Euthyroid Goiter.
  
- 3**    Short questions : **6**
  - (1) Define Abcess
  - (2) Define Septicemia
  - (3) Full Form of S.I.R.S.
  - (4) Necrosis
  - (5) Dislocation
  - (6) Sinus.

## SECTION - II

- 4 Classification of Fractures and General Principles of management of fracture and Complications of fracture. 14
- 5 Short notes : (any three) 15
- (a) Oral Sub mucous Fibrosis.
  - (b) Enumerate Different local anesthetics and describes Lignocaine in detail.
  - (c) Indications and Complication of Tracheostomy.
  - (d) Types of shock and management of Hemorrhagic Shock.
  - (e) Types of dermoid cysts and clinical features and management of sequestration dermoid.
- 6 Short questions : 6
- (1) Grave's Diseases
  - (2) Fistula
  - (3) Full form of A.I.D.S.
  - (4) Apoptosis
  - (5) Cellulitis
  - (6) Subluxation.
-

**GF-3122**

Seat No. \_\_\_\_\_

**Third Year B. D. S. Examination**

**December – 2016**

**General Surgery**

Time : 3 Hours]

[Total Marks : 70

**Instructions :**

- (1) Write legibly. Draw diagrams/tables when necessary.
- (2) Use separate answer sheet for each section.
- (3) Figures to the right indicate full mark for the question.

**SECTION – I**

- 1 Define Haemorrhage. Describe classification and management of Haemorrhage. **14**
- 2 Write notes : (any **three**) **15**
  - (a) Collar Stud Abscess
  - (b) Tetanus
  - (c) Blood Components
  - (d) Causes for nonhealing of an ulcer
  - (e) Le Forte Fracture.
- 3 Answer in brief : **6**
  - (a) Tetany.
  - (b) Trigeminal Neuralgia.
  - (c) Thyroid Storm.
  - (d) Intermittent Claudication.
  - (e) FNAC.
  - (f) Punctum.

## SECTION - II

- 4 Describe classification and management of Wound. 14
- 5 Write notes : (any **three**) 15
- (a) Tracheostomy- Indications and care
  - (b) HIV and surgeon
  - (c) Gas Gangrene
  - (d) Glassgow Coma Scale
  - (e) Dentigerous Cyst.
- 6 Answer in brief : 6
- (a) Definition of gangrene.
  - (b) Grave's Disease.
  - (c) Reid-Sternberg Glant Cell.
  - (d) Cardinal signs of Inflammation.
  - (e) Lepra Reaction.
  - (f) Potato Tumour.
-

Seat No. \_\_\_\_\_

**Third Year B. D. S. Examination**

**June / July - 2016**

**General Surgery**

Time : 3 Hours]

[Total Marks : 70

- Instructions :**
- (1) Figures to the right indicate full marks.
  - (2) Draw diagram wherever necessary.
  - (3) Use separate answer book for each section.
  - (4) Write legibly. Illegible writing decreases the value of answer.

**SECTION - I**

- 1 Describe indication, postoperative care and complication of Tracheostomy. 14
- 2 Write short notes on (any three) 15
  - (a) Venepuncture
  - (b) Cellulitis
  - (c) Trismus
  - (d) Spreading Ulcer
  - (e) Lipoma
- 3 Write in one or two sentences 6
  - (i) Enumerate three hypercatabolic state
  - (ii) What do you mean by healing by first intention?

**PAM-3102]**

- (iii) Enumerate 2 systemic complications of Lignocaine.
- (iv) Enumerate 2 examinations finding present in healing ulcer.
- (v) Enumerate oral signs of congenital Syphilis
- (vi) Enumerate oral manifestation of Tuberculosis

### SECTION - II

- |   |   |    |
|---|---|----|
| 4 | Describe different types of hemorrhage and method to estimate the blood loss. Describe different method to stop the hemorrhage.   | 14 |
| 5 | Write short notes on (any three)  | 15 |
|   | <ul style="list-style-type: none"> <li>(1) Hepatitis B and dentist</li> <li>(2) Local Anaesthesia</li> <li>(3) Catheter</li> <li>(4) Causes of persistence of sinus or fistula</li> <li>(5) Xerostomia</li> </ul>   |    |
| 6 | Write in one or two sentences :   | 6  |
|   | <ul style="list-style-type: none"> <li>(i) Define Ulcer</li> <li>(ii) Enumerate two malignant condition in face</li> <li>(iii) Enumerate 2 methods of sterilization.</li> <li>(iv) Paget's Test</li> <li>(v) Cardinal signs of Hernia.</li> <li>(vi) Types of odontogenic cyst</li> </ul> |    |

## **General Surgery**

**Time : 3 Hours]**

**[Total Marks : 70**

- Instructions:**
- (1) Write answers of each section separately.
  - (2) Draw diagrams where required.

### **SECTION-I**

- 1 Define Shock. Write about classification, clinical features, and management of various types of shock. 14
- 2 Write short notes : (any three) 15
  - (1) Principles and management of faciomaxillary injuries.
  - (2) Blood Components.
  - (3) Clinical features and management of tetanus.
  - (4) Types and management of cleft lip.
  - (5) HIV and surgeon.
- 3 Answer the following short questions in brief : 6
  - (1) Intermittent Claudication.
  - (2) Signs of Inflammation.
  - (3) Definition of gangrene.
  - (4) Sterilization.
  - (5) Name of 5<sup>th</sup> Cranial nerve.
  - (6) Fine Needle Aspiration Cytoogy.

## SECTION - II

- 4 Define Goitre. Write about clinical features, investigations and management of Grave's Disease. 14
- 5 Write short notes : (any three) 15
- (1) Indications and care of Tracheostomy.
  - (2) Causes of persistence of a sinus and its management.
  - (3) Principles of Wound healing.
  - (4) Collar Stud Abscess.
  - (5) Glasgow Coma Scale.
6. Answer the following short questions in brief : 06
- (1) Le Forte Fracture.
  - (2) Callous Ulcer.
  - (3) Implantation Dermoid.
  - (4) Reid-Sternberg giant cell.
  - (5) Sebaceous Cyst.
  - (6) Secondary haemorrhage.
-

Seat No. \_\_\_\_\_

**Third Year B. D. S. Examination**

**June / July - 2015**

**General Surgery**

Time : 3 Hours]

[Total Marks : 70

**SECTION - I**

- 1 Describe clinical features, diagnosis and management 14  
of carcinoma of thyroid.

**OR**

Classify wounds. Mention the features and  
management of each type of wound.

- 2 Short notes : (any **three**) 15
- (a) Sterilisation
  - (b) Tetanus
  - (c) Tracheostomy
  - (d) Warthin's tumour
  - (e) Ameloblastoma.

- 3 Short questions : 6
- (1) Define haemorrhage.
  - (2) Define fistula.
  - (3) Organism causing Syphilis.
  - (4) What is Sialography ?
  - (5) Define Ulcer.
  - (6) What is Embolism ?

## SECTION - II

- 4 Clinical sign, symptoms and general principles of Treatment of fracture. 14

OR

Describe the aetiology, clinical features and Management of cleft lip and palate.

- 5 Short notes : (any **three**) 15

- (a) Biopsy
- (b) Hypovolaemic shock
- (c) Premalignant condition of oral cavity
- (d) Diathermy
- (e) Trigeminal neuralgia.

- 6 Short questions : 6

- (1) Define cyst.
  - (2) What is cryosurgery ?
  - (3) Define Boil.
  - (4) Types of local anaesthesia.
  - (5) Define Thyroglossal cyst.
  - (6) Full form of A.I.D.S.
-

**KCF-8442**

Seat No. \_\_\_\_\_

**Third Year B.D.S. Examination**

**November/December – 2014**

**General Surgery**

Time : 3 Hours]

[Total Marks : 70

**SECTION – I**

1. Describe heamorrhage. Its types and treatment 14  
of heamorrhagic shock.
2. Short notes : (Any **three**) 15
  - (a) Wound : Its classification and treatment.
  - (b) Trigeminal neuralgia. Its clinical features and treatment.
  - (c) Tetanus toxoid and its treatment.
  - (d) Define tracheostomy and its indications and complications.
  - (e) Describe sterilisation and aseptic precautions.
3. Short questions : 6
  - (a) Define fistula.
  - (b) Define sinus.
  - (c) Define dislocation of joint.
  - (d) Organism producing actinomycosis.
  - (e) Define shock.
  - (f) Define pyomeria.

## SECTION - II

4. Describe ulcer. Its classification and treatment of T.B. ulcer. 14
5. Short notes : (Any **three**) 15
- (a) Treatment of cold abscess.
  - (b) Facial nerve palsy. Its treatment.
  - (c) Anomalies of development of face. Types of cleft lip.
  - (d) Pre-malignant condition of skin. Its treatment.
  - (e) Complication of fracture. Its treatment.
6. Short questions : 6
- (a) Name all cranial nerves.
  - (b) Define boil.
  - (c) Define an abscess.
  - (d) Define cyst.
  - (e) Define styte.
  - (f) Organism producing syphilis.
-

**BO-5062**

Seat No. \_\_\_\_\_

**Third Year B. D. S. Examination**

**May / June – 2014**

**General Surgery**

Time : 3 Hours]

[Total Marks : 70

**SECTION - I**

- 1 Describe in detail : Definition, classification, 14  
causes, clinical features, management of various  
types of “shock” ?
- 2 Short notes : (any **three**) 15  
(a) Indications, procedure of “TRACHEOSTOMY” ?  
(b) Define “ULCER”. Its types and treatment of  
varicose ulcer ?  
(c) Facial nerve palsy - causes and treatment of  
its in detail.  
(d) Types of “GANGRENE” and treatment of  
Diabetic gangrene.  
(e) Prevention and precaution taken for HIV and  
Hepatitis.
- 3 Short questions : 6  
(1) Define Cold abscess.  
(2) Define Boil.  
(3) Define Fistula.  
(4) Define Fracture.  
(5) Types of Hemorrhage according to Time.  
(6) Define Incised wound.

## SECTION - II

- 4 Describe General principle of Fracture and management of it, its complications in detail. 14
- 5 Short notes : (any **three**) 15
- (a) Define neural injury and define axonotmesis and Neuropraxis ?
  - (b) Define Thyroglossal cyst, its treatment.
  - (c) Trigeminal neuralgia, its treatment.
  - (d) Anomalies of development of Face, Types of cleft lip.
  - (e) Describe Anatomy of Thyroid gland.
- 6 Short Questions : 6
- (1) Define Cyst.
  - (2) Causative organism of Gonorrhea.
  - (3) Describe name of all cranial nerves.
  - (4) Define an Abscess.
  - (5) Causative organism of Syphilis.
  - (6) Define Sinus.
-

Seat No. \_\_\_\_\_

**Third Year B. D. S. Examination**

**December – 2013**

**Gen. Surgery**

Time : 3 Hours]

[Total Marks : 70

**SECTION - I**

- 1 Describe General principles of FRACTURE and management of its complications in detail. 14
- 2 Short notes : (any three) 15
  - (a) Anomalies of development of FACE, types of CLEFT LIP.
  - (b) Describe asepsis, antiseptic sterilization
  - (c) Thyroglossal cyst - Describe it and its treatment.
  - (d) Tracheostomy - its indication and care of its.
  - (e) Prevention and precaution to be taken for spreading HIV and Hepatitis.
- 3 Short questions : 6
  - (i) Define Wound.
  - (ii) Define Haemorrhage.
  - (iii) Define Boil.
  - (iv) Define Fracture.
  - (v) Define Fistula.
  - (vi) Define sinus.

## SECTION - II

- 4 Describe Burns in detail, treatment of 30% burns of male 25 years old with 50 kg weight. 14
- 5 Short notes : (any three) 15
- (a) Facial Palsy. Its causes and treatment in detail.
  - (b) Describe gas gangrene and its treatment.
  - (c) Pre-malignant condition of skin.
  - (d) Treatment of cold-abscess.
  - (e) Define Ulcer. Its type and treatment of T.B. ulcer.
- 6 Short questions : 6
- (i) Define Cyst.
  - (ii) Define ABCESS.
  - (iii) What is Anti-D ?
  - (iv) Organism producing Syphilis
  - (v) Define Subluxation ?
  - (vi) Define Pyometritis ?
-

**SECTION - I**

- 1 Describe in detail : 14  
Classification, causes, clinical features and management of various types of "SHOCK".
  
- 2 Short notes : (any **three**) 15
  - (a) Trigeminal Neuralgia and its treatment
  - (b) Describe in detail : Tetanus and its treatment
  - (c) Indication, procedure and complication of "Tracheostomy"
  - (d) Define wounds and its classification.
  - (e) Facial palsy and its treatment.
  
- 3 Short questions : 6
  - (a) Define cyst.
  - (b) What is Boil ?
  - (c) Name all cranial nerves.
  - (d) Define fistula.
  - (e) Define ulcer.
  - (f) Define sinus.

## SECTION - II

- 4 Describe Ulcer, Its classification and treatment of varicose ulcer. 14
- 5 Short notes : (any **three**) 15
- (a) Wounds : Its classification, treatment
  - (b) Define neurotmesis in detail
  - (c) Premalignant conditions of skin
  - (d) Anatomy of thyroid gland
  - (e) Describe gas gangrene and its treatment.
- 6 Short questions : 6
- (a) Cold abscess - Causative organism
  - (b) Define fracture.
  - (c) Define Haemorrhage.
  - (d) What is Leukoplakia ?
  - (e) Define subluxation.
  - (f) Full name of A.I.D.S.
-

**SECTION - I**

- 1 Describe ulcer – its classification and treatment of varicose ulcer. 14
- 2 Short notes : (any **three**) 15
  - (a) Wound; its classification – Treatment.
  - (b) Trigeminal neuralgia in detail.
  - (c) Tetanus toxoid in detail.
  - (d) Tracheostomy operative procedure.
  - (e) Define Neurotmesis in detail.
- 3
  - (i) Define Haemorrhage. 6
  - (ii) Define Shock.
  - (iii) Define Sinus
  - (iv) Organism producing actinomycosis.
  - (v) Define subluxation.
  - (vi) Define Dislocation of joint.

**SECTION - II**

- 4 Describe Burns in details and treatment of 30% burns of male 25 years old with 50 kg weight. 14

- 5 Short notes : (any **three**) 15
- (a) Anomalies of development of face types of cleft lip.
  - (b) Anatomy of thyroid gland.
  - (c) Wound Healing in detail.
  - (d) Pre-malignant condition of skin.
  - (e) Treatment of cold abcess.

- 6 Short questions : 6
- (i) Name all cranial nerves.
  - (ii) Define cyst.
  - (iii) What is Anti-D in blood grouping ?
  - (iv) Define Fistula.
  - (v) Organism producing syphilis.
  - (vi) What is Boil ?
-

**K-9722**

Seat No. \_\_\_\_\_

Time : 3 Hours]

[Total Marks : 70

**SECTION - I**

- 1 Describe in detail - Definition. 14  
Classification, Causes, Clinical features and management of various types of shock.
- 2 Describe any three : (short notes) 15
  - (a) Facial palsy ? It's causes and treatment in detail ?
  - (b) Describe gas gangrene and its treatment.
  - (c) Define ulcer. Its type and treatment of T.B.ulcer ?
  - (d) Tracheostomy, its indication and care of it.
  - (e) Preventions and precaution to be taken for HIV and Hepatitis spreading.
- 3 Short questions : 6
  - (1) Define Wound.
  - (2) Define haemorrhage.
  - (3) Cold abscess : Causative organism.
  - (4) Define boil.
  - (5) Define Fracture.
  - (6) Define Fistula.

## SECTION - II

- 4 Describe General Principle of Fracture and Management of it. Its complications in detail. 14
- 5 Short notes : (any three) 15
- (a) Anomalies of development of face, types of cleft lip.
  - (b) Describe asepsis, antiseptic sterilization.
  - (c) Thyroglossal cyst. Describe it and treatment of it.
  - (d) Premalignant condition of skin.
  - (e) Define nerve injury and define Axonotmesis neuropraxia.
- 6 Short questions : 6
- (1) Define cyst.
  - (2) What is leucoplakia ?
  - (3) Define Biopsy.
  - (4) Describe cranial nerves name.
  - (5) Causative organism of syphilis.
  - (6) Full form of A.I.D.S.
-

**TQ-8552**

Seat No. \_\_\_\_\_

**Third B. D. S. Examination**

**October / November - 2011**

**General Surgery**

Time : 3 Hours]

[Total Marks : 70

- 1 Describe in detail : 14  
Classification, causes, clinical features of management of various types of shock.
- 2 Describe any three (short notes) 15  
(a) Wounds : Classification, Healin, Repair, Treatment  
(b) Gangrene in detail and its treatment.  
(c) Preventions and precautions to be taken for HIV and Hepatitis-B spreading.  
(d) Trigeminal Neuralgia in detail.  
(e) Tetanus in detail
- 3 (a) What is ulcer ? 6  
(b) Define Heamorrhage.  
(c) Cold Abcess - Causative organism  
(d) Describe sinus and Fistula  
(e) Describe actinomycosis  
(f) Bacteria causing vincent's angina.

## SECTION - II

- 4 Describe burns in detail, classification, treatment etc. 14
- 5 Short notes (any three) 15
- (a) General principles of fractures, clinical presentation and treatment
  - (b) Anomalies of development of face. Types of cleft lip.
  - (c) Describe - Asepsis, Antiseptics, Sterilization.
  - (d) Thyroglossal cyst : Describe it and treatment of it.
  - (e) Premalignant condition of skin.
- 6 Short questions : 6
- (a) Full form of A.I.D.S.
  - (b) Hepatitis-B is spread from Blood (Yes/No)
  - (c) Define wound.
  - (d) Describe Biopsy.
  - (e) Define cyst.
  - (f) What is leucoplakia.
-

Seat No. \_\_\_\_\_

**Third Year B.D.S. Examination**

**October / November – 2010**

**Gen. Surgery**

Time : 3 Hours]

[Total Marks : 80

**SECTION – I**

- 1 Discuss differential diagnosis of midline neck swelling and describe in detail management of primary thyrotoxicosis. 14
- 2 Classify Burns. Discuss management of 25 years female patient with 30% burns. 14
- 3 Write about any two : 12
  - (a) Ranula
  - (b) 2% xylocaine
  - (c) Concrum oris.

**SECTION – II**

- 4 Define wound and its classification. 14  
Discuss factors affecting wound healing.

Discuss management of a patient with Road Traffic Accident. Discuss in detail management of Extra Dural Hematoma. 14

Write in short about any two : 12

- (a) Syphilis
  - (b) Tracheostomy
  - (c) Disinfection.
-

**D-2977**

Seat No. \_\_\_\_\_

**Third Year B.D.S. Examination**

**March / April - 2010**

**General Surgery**

Time : 3 Hours]

[Total Marks : 80

**SECTION-I**

- 1 Describe indications of blood transfusion. 14  
Describe different blood fractions of complications of blood transfusion.
- 2 Describe aetiopathology, clinical features and 14  
treatment of tetanus.
- 3 Write in short about any two : 12  
(a) Sialoadenitis  
(b) Biopsy  
(c) Tracheostomy

**SECTION-II**

- 4 Describe differential diagnosis of neck swellings. 14
- 5 Discuss in detail management of an adult 14  
patient with 50% accidental flame burns.

6 Write in short : (any two)

12

- (a) Causes of persistent sinus/fistula
  - (b) Varicose ulcer
  - (c) Autoclaving
-

AP-5277

Seat No. \_\_\_\_\_

**Third Year B. D. S. Examination**

**September / October - 2009**

**General Surgery**

Time : 3 Hours]

[Total Marks : 80

**Instruction :** Write each section in **separate** answer paper.

**SECTION - I**

- 1 Define Cellulitis, Gangrene, Sinus, Fistula and Cancrum oris. Describe any two in detail. 14
- 2 Describe anatomy of parotid gland. Describe pleomorphic adenoma in detail. 14
- 3 Write short notes : (any two) 12
  - (1) Ranula
  - (2) Sterilization technique
  - (3) Thyroglossal cyst.

**SECTION - II**

- 4 Define shock. Describe various types of shock. 14
- 5 Describe anatomy of cervical lymph nodes. Describe tuberculous lymphadenitis. 14
- 6 Write short notes : (any two) 12
  - (1) Tetanus
  - (2) Actinomycosis
  - (3) Dental cyst.

**Third Year B. D. S. Examination****March / April - 2009****General Surgery**

Time : 3 Hours]

[Total Marks : 80

- Instructions :**
- (1) Figures to the **right** indicate full marks.
  - (2) Draw diagram wherever necessary.
  - (3) Use **separate** answer book for each section.
  - (4) Write legibly. Illegible writing decreases the value of answer.

**SECTION - I**

- 1 Describe the types of wounds, different types of wound healing and factors affecting it 14
- 2 Describe in nutshell the sterile precaution regarding the theatre, instruments, operating staff and the patient. 14

**OR**

- 2 Describe different types of hemorrhage and method to estimate the blood loss. Describe different methods to stop the hemorrhage. 14
- 3 Write short notes on : (Any three) 12
  - (a) Gangrene
  - (b) Cellulitis
  - (c) Dentigerous cyst
  - (d) Spreading Ulcer
  - (e) Sialoadenitis.

## SECTION - II

4 Describe the aetiopathogenesis, clinical features and treatment of tetanus. 14

5 Describe the ABC of resuscitation of acutely injured patient with maxillofacial injury. 14

OR

5 Describe the differential diagnosis of cervical swelling. 14

6 Write short notes on : (Any three) 12

(a) AIDS and dentist

(b) Local Anaesthesia

(c) Keloid

(d) Biopsy

(e) Xerostomia.

# sub general surgery

## III<sup>rd</sup> Year Dental

### section 1

1 define shock with pathophysiology and various types of shock with its treatment in brief  
7 Marks

2 short notes ( any three of five )

A : tuberculous ulcer

B : what is tetanus and its prophylaxis

C : cold abscess

D : ludwig's angina

F : vasovagal shock

12 Marks

### 3 answer in one line

1 causative organism of Tb

2 normal pH of blood

3 one cause of venous ulcer

4 what is antibioma

5 full form of MODS

6 what is hyponatremia

6 Marks

### section 2 ( 25 marks )

1 tuberculosis with its mode of spread ,clinical features and investigation  
name of antituberculous drugs and duration of treatment

7 Marks

2 short notes ( any three of five )

a septicemia

b. cardiogenic shock

c. abscess

d. malignant ulcer

e. inflammation

12 Marks

3 match A with B

A

A traumatic ulcer

B diabetic ulcer

C tuberculous ulcer

D neurotropic ulcer

E arterial ulcer

F malignant ulcer

B

a undermined edge with bluish surrounding

b small painful ulcer at site of trauma

c painless deep with loss of sensation

d commonly seen over toes and feet with sepsis

e irregular with everted margin and fix

f deep irregular punched out with rest pain

6 Marks

## General Surgery

### Preliminary Examination (Regular Batch: 2016-17)

Time: 3 hours

[Total Marks: 70]

#### Section I

- 1) Long Question (Any One) 1 × 10 = 10  
A. Describe Haemorrhage. Describe classification and management of haemorrhage.  
B. Graves disease- clinical features and management.
- 2) Short Notes (Any Three) 3 × 5 = 15  
A. Tracheostomy  
B. Dentigerous cyst  
C. Lipoma  
D. Factor affecting wound healing  
E. HIV and surgeon
- 3) Answer in one line 5 × 1 = 5  
A. Sign of inflammation  
B. Full form of FNAC  
C. What is sebaceous cyst  
D. REID STERNBERG GIANT CELL  
E. Name of 5<sup>th</sup> cranial nerve
- 4) MCQ's 5 × 1 = 5  
A. Lipoma arises from  
a. Fat cells,                      b. Hair follicle,                      c. Skin,                      d. Muscles  
B. Sebaceous cyst arises from  
a. Sweat gland,                      b. Sebaceous gland,                      c. Salivary gland,                      d. Fat  
C. Dentigerous cyst is found at  
a. Angle of mandible,                      b. Midline,                      c. Neck,                      d. Floor of the mouth  
D. Impulse on coughing is seen in  
a. Hernia,                      b. Hydrocele,                      c. Lymphnode,                      d. Ulcer  
E. Healing of bone occurs by  
a. Callous formation,                      b. Granulation,                      c. Muscle cells,                      d. None of the above

## Section II

### 5) Long Question (Any One)

$1 \times 10 = 10$

- A. General principles of fracture management
- B. Define ulcer. Describe clinical examination of ulcer.

### 6) Short Notes (Any Three)

$3 \times 5 = 15$

- A. Etiology of vocal cord paralysis
- B. Vaso vagal shock
- C. Potato tumor
- D. Axonotmesis
- E. Ameloblastoma

### 7) Answer in one line

$5 \times 1 = 5$

- A. Full form of AIDS
- B. What is leukoplakia
- C. Define biopsy
- D. Define wound
- E. What is cold abscess

### 8) MCQ's

$5 \times 1 = 5$

- A. Formula used for calculation of percentages of burns
  - a. Rule of nine,      b. Rule of six,      c. Bendict formula ,      d. Rule of five
- B. Commonly involved lymph nodes in TB
  - a. Axillaries,      b. Cervical,      c. Inguinal,      d. Abdominal
- C. Goiter is caused by deficiency of
  - a. Iron,      b. Vitamin B12,      c. Iodine,      d. Zinc
- D. Which is not a sign of inflammation?
  - a. Swelling,      b. Redness,      c. Temperature,      d. Acidity
- E. Which structure is closely related with facial nerve
  - a. Parotid,      b. Tongue,      c. Teeth,      d. Nose

# General surgery

## 2<sup>nd</sup> Internal for Regular batch (16-17)

### Section 1

Q.1- define ulcer describe clinical examination of ulcer.

Q.2- write short notes on any three

- a. cellular phase of wound healing
- b. dermoid cyst
- c. vasovagal shock
- d. ca larynx staging.
- e. dentigerous cyst

Q. 3 Answer in one line

- a. Myelohyoid muscle originates from which bone?
- b. Five features of inflammation.
- c. which group of lymph nodes are commonly involved in tuberculosis?
- d. superior laryngeal nerve supplies which muscle?
- e. Name two chemical mediators of inflammation.
- f. filariasis is transmitted by which mosquito?

### Section 2

Q. 4 Define shock. How will you manage a case of hypovolemic shock.

Q. 5 Write shortnotes on any three:

1. Factors influencing wound healing.
2. difference between hyperplasia and metaplasia.
3. Sebaceous cyst.
4. Etiology of vocal cord paralysis.
5. Lipoma.

P.T.O.

Q.6 Select write answer from the following

1. Left recurrent laryngeal nerve curves around
  - a. Subclavian artery
  - b. Arch of aorta
  - c. Pulmonary artery
  - d. Left axillary artery.
2. Fat from intestine is transported through
  - a. lymphatics
  - b. Veins
  - c. Capillary
  - d. Artery
3. Tuberculous ulcer has .....edge
  - a. slopping
  - b. Undermined
  - c. Raised
  - d. Vertical
4. lymphatics are absent in which part of larynx.
  - a. glottis
  - b. Supraglottis
  - c. epiglottis
  - d. Subglottis
5. Which is not involved in the compensatory mechanism of shock.
  - a. Catacholemines
  - b. Vasopressin
  - c. Angiotensin
  - d. Thyroxin
6. Which is a congenital sinus
  - a. Pilonidal
  - b. Branchial
  - c. Perianal
  - d. Foreign body sinus

## IIIrd BDS INTERNAL EXAMINATION

### PRELIMINARY EXAM

---

#### SECTION - I

- (1) Define biopsy, classification of biopsy, management of cancer oral cavity. 20
- (2) Define and classify swelling of lower jaw, management of parotid adenoma . 15
- (3) SHORT NOTE (any three) 15
  - A) Potato tumour
  - B) Renaud's disease
  - C) Management of cellulites
  - D) Teany.

#### SECTION – II

- (1) Define central & peripheral nervous system causes & management of nerve injuries. 20
- (2) Define & classify Ulcer, treatment of Tropic Ulcer. 15
- (3) SHORT NOTE (any two) 10
  - A) Ingrowing to nail.
  - B) Thrombphlebitis.
  - C) TNM staging of malignant tumour
- (4) SHORT QUESTIONS (2 Differences) 5
  - Difference between
  - A) Sinus / Fistula
  - B) Benign / Malignant Tumour
  - C) Sebaceous cyst / Lipoma
  - D) Infection / Inflammation
  - E) Benign/ Malignant Ulcer

# NARSINHBHAI PATEL DENTAL COLLEGE, VISNAGAR

## IIIrd BDS INTERNAL EXAMINATION

### 1<sup>st</sup> TERM

#### SECTION - I

- |  |    |
|--|----|
| (1) Hypo Volumic Shock.                                    | 07 |
| (2) SHORT NOTE (any three)                                 | 12 |
| A) Differences between sinus & fistula                     |    |
| B) Lipoma  |    |
| C) Classification of ulcer.                                |    |
| D) Tongue tie.   |    |
| E) Rule of nine in burns                                   |    |
| (3) SHORT QUESTION   | 06 |
| A) Definition  |    |
| (1) Shock  |    |
| (2) Gangrene   |    |
| B) NUMERICAL   |    |
| (1) Thyroid hormones are _____ in number.                  |    |
| (2) Normal body temperature is _____ in degree Fahrenheit. |    |
| C) Abbreviation  |    |
| (1) M.M.R.   |    |
| (2) A.S.V.   |    |

#### SECTION – II

- |  |    |
|--|----|
| (2) Define and classify gangrene management of diabetic foot . | 07 |
| (3) SHORT NOTE (any three)                                     | 12 |
| A) Sebaceous cyst  |    |
| B) Classification & management of sprain                       |    |
| C) AIDS  |    |
| D) Neuropraxia   |    |
| E) Ganglion  |    |

(2)

(3) SHORT QUESTIONS

06

(1) DEFINATION

- (A) Hyperthyroidism
- (B) Fracture

(2) NUMERICAL

- (A) Branches of facial nerve are \_\_\_\_\_ in number.
- (B) Normal eye vision is \_\_\_\_\_

(3) Abbreviation

- (A) P.P.I.
- (B) T.T.

# NARSINHBHAI PATEL DENTAL COLLEGE, VISNAGAR

## IIIrd BDS INTERNAL EXAMINATION

### SECOND TERM EXAM

---

#### SECTION - I

- (1) Define central & peripheral nervous system causes & management of nerve injuries. 08
- (2) SHORT NOTE (any three) 12
- A) Potato tumour
  - B) Diabetic Foot
  - C) Myxedema coma
  - D) Lipoma
  - E) Ingrowing toe nail.
- (3) SHORT QUESTIONS 5
- A) Quadrants of abdomen are \_\_\_\_\_ in number
  - B) Cranial nerves are \_\_\_\_\_ in number
  - C) Bones in body are \_\_\_\_\_ in number
  - D) Facial nerve branches are \_\_\_\_\_ in number
  - E) Signs of inflammation are \_\_\_\_\_ in number

#### SECTION – II

- (1) Define biopsy, classification of biopsy, management of cancer oral cavity. 08
- (2) SHORT NOTE ( Any three) 12
- A) Ranula
  - B) Difference between Sinus & Fistula
  - C) Cold Abscess
  - D) Thyroglossal cyst
  - E) Rule of nine in burns
- (3) SHORT QUESTION 05
- A) Define Ulcer
  - B) Fistula
  - C) Define swelling
  - D) Malignant Tumour
  - E) Define Shock.

\*\*\*

## IIIrd BDS INTERNAL EXAMINATION

### PRELIMINARY EXAM

---

#### SECTION - I

- (1) Define Gangrene, Classification of Gangrene, management of diabetic foot. 25
- (2) SHORT NOTE (any two) 10
- A) Principals of management of Cancer
  - B) Diabetic foot
  - C) Healing of wound
- (3) SHORT NOTE (any three) 15
- A) Glasgow coma score
  - B) Classification of trismus
  - C) Define and write types of hernia
  - D) Define and write types of biopsy

#### SECTION-II

- (1) Thyroid hormone synthesis, etiology & management of thyrotoxicosis. 20
- (2) Drainage of lymphatic system D/D of cervical lymph node enlargement. 15
- (3) SHORT NOTE (any two) 10
- A) Carbuncle
  - B) Define & write types of sprain
  - C) Lipoma
- (4) SHORT QUESTIONS 5
- A) Quadrants of abdomen are \_\_\_\_\_ in number
  - B) Cranial nerves are \_\_\_\_\_ in number
  - C) Bones in body are \_\_\_\_\_ in number
  - D) Facial nerve branches are \_\_\_\_\_ in number
  - E) Signs of inflammation are \_\_\_\_\_ in number

# NARSINHBHAI PATEL DENTAL COLLEGE, VISNAGAR

## IIIrd BDS INTERNAL EXAMINATION

### 1<sup>st</sup> TERM (OCT-NOV BATCH)

#### SECTION - I

- (1) Hypo Volumic Shock. 07
- (2) SHORT NOTE (any three) 12
- A) Differences between sinus & fistula.
  - B) Lipoma
  - C) Classification of ulcer.
  - D) Tongue tie.
  - E) Rule of nine in burns
- (3) SHORT QUESTION 06
- A) Definition
    - (1) Shock
    - (2) Gangrene
  - B) NUMERICAL
    - (1) Thyroid hormones are \_\_\_\_\_ in number.
    - (2) Normal body temperature is \_\_\_\_\_ in degree Fahrenheit.
  - C) Abbreviation
    - (1) M.M.R.
    - (2) A.S.V.

#### SECTION – II

- (1) Define and classify gangrene management of diabetic foot . 07
- (2) SHORT NOTE ( any three) 12
- A) Sebaceous cyst.
  - B) Classification & management of sprain
  - C) AIDS
  - D) Neuroprexia
  - E) Ganglion

(2)

06

(3) SHORT QUESTIONS

A) DEFINATION

(1) CYST

(2) Inflammation

B) NUMERICAL

(1) Thyroid glands has \_\_\_\_\_ parts

(2) Normal blood sugar level is \_\_\_\_\_

C) Abbreviation

(1) T4

(2) M.T.

THIRD B.D.S. (Oct-Dec Batch)

3<sup>rd</sup> INTERNAL EXAMINATION

**GENERAL SURGERY**

[Time : 10.30 am to 1.30 pm] [ Date : 1/12/15] [ Marks : 100]

Section- I

1. Describe the types of ulcers & their management. 15
2. Discuss the aetiology, clinical features & management of  
of parotid gland tumour. 15
3. Short notes ( any three.). 15
  1. Brachial fistula.
  2. TB cervical lymphadenitis.
  3. Dermoid cyst.
  4. Haemangioma.
4. Short questions (any five ) 05
  - a. What is neurogenic shock ?
  - b. Classification of wound.
  - c. What is scald ?
  - d. Define tumour.
  - e. Types of fistula.
  - f. What is plunging ranula.

## Section – II

5. Describe clinical features, diagnosis and management of carcinoma of tongue. 15
6. Discuss the aetiology, clinical features & management of tetanus. 15
7. Short notes ( any three ) 15
  1. Bell's palsy.
  2. Cleft palate.
  3. Wound healing.
  4. Haemorrhage.
8. Short questions. ( any five ) 05
  1. What is Epulis ?
  2. Define goitre.
  3. What is cystic hygroma ?
  4. Define Autoclave.
  5. Uses of cryosurgery.
  6. What is Gas Gangrene ?

***BEST OF LUCK***

THIRD B.D.S. (2015-2016)

1<sup>ST</sup> INTERNAL EXAMINATION

## **GENERAL SURGERY**

[Time : 1 hr 30 min]

[ Marks : 50 ]

1. Describe the types of ulcers & their management. 15
2. Describe the midline swelling of the neck. Discuss the aetiology, clinical features & management of thyroglossal cyst. 15
3. Short notes (any three). 15
  1. Rule of nine & its importance in burns
  2. Haemangioma.
  3. Ranula.
  4. Sebaceous cyst.
  5. TNM classification.
4. Short questions (any five ) 05
  - a. Define fistula.
  - b. Organism causing syphilis
  - c. Stages of TB cervical lymphadenitis.
  - d. Mention nine quadrant of anterior abdo. Wall.
  - e. Define tumour.
  - f. Full form of AIDS.

THIRD B.D.S. (2015-2016)

1<sup>ST</sup> INTERNAL EXAMINATION

## **GENERAL SURGERY**

[Time : 1 hr 30 min]

[ Marks : 50 ]

1. Describe the types of ulcers & their management. 15
2. Describe the midline swelling of the neck. Discuss the aetiology, clinical features & management of thyroglossal cyst. 15
3. Short notes (any three). 15
  1. Rule of nine & its importance in burns
  2. Haemangioma.
  3. Ranula.
  4. Sebaceous cyst.
  5. TNM classification.
4. Short questions (any five ) 05
  - a. Define fistula.
  - b. Organism causing syphilis
  - c. Stages of TB cervical lymphadenitis.
  - d. Mention nine quadrant of anterior abdo. Wall.
  - e. Define tumour.
  - f. Full form of AIDS.

NARSINHBHAI PATEL DENTAL COLLEGE & HOSPITAL, Visnagar.

THIRD B.D.S. (Oct-Dec Batch)

2<sup>nd</sup> INTERNAL EXAMINATION

## **GENERAL SURGERY**

[Time : 10.30AM to 12.00PM]      Date: 11/08/15]      [ Marks:35]

1. Describe the management of 40% thermal burns in a person having Wt. of 60kg. 14

Or

Describe the clinical features and management of shock.

2. Short notes ( any three ). 15

1. AIDS & Surgery.
2. Inflammation.
3. Ludwig's Angina.
4. Premalignant condition of oral cavity.
5. Tracheostomy.

3. Short questions (any six ) 06

- a. Define Trismus.
- b. Define Wound.
- c. Mention the types of ulcer.
- d. What is collar-stud abscess?
- e. Mention the types of haemorrhage.
- f. Define sinus.
- g. Organism causing Syphilis.

***BEST OF LUCK***

## **Third B.D.S.**

### **Third Internal Examination**

#### **General Surgery**

Time : 3 Hours]

[Total Marks : 70

#### **SECTION - I**

1. Describe types of ulcer and their management. 14

Or

Classify salivary gland tumours and describe clinical features and management of parotid gland tumours.

2. Short notes : (any three) 15

- (a) Wound healing.
- (b) Haemophilia.
- (c) Facial nerve palsy.
- (d) Laser in surgery.
- (e) Gas gangrene.

3. Short questions : 6

- (1) What is sinus ?
- (2) Define disinfection.
- (3) Organism causing Tetanus.
- (4) What is reactionary haemorrhage?
- (5) Mention Antituberculous drugs.
- (6) What is Cancrum oris ?

## **SECTION - II**

4. Describe the aetiology, clinical features and Management of carcinoma of tongue. 14

Or

Classify and Describe the clinical features and Management Of shock.

5. Short notes (any three) 15

- (a) Sterilisation.
- (b) Burkitt's tumour.
- (c) Tracheostomy.
- (d) Primary Thyrotoxicosis.
- (e) Development of face with anomalies.

6. Short questions : 6

- (1) Define fracture.
- (2) What is epulis ?
- (3) Define cyst.
- (4) What is quinsy ?
- (5) Organism causing TB.
- (6) What is antibioma ?

THIRD B.D.S. (Oct-Dec Batch)

1<sup>ST</sup> INTERNAL EXAMINATION

**GENERAL SURGERY**

[Time : 1 hr 30 min]

[ Marks : 35 ]

1. Describe the types of wounds & their management. 14
2. Short notes ( any three ). 15
  1. Sterilisation.
  2. Types of local anaesthesia in detail.
  3. Primary thyrotoxicosis.
  4. Biopsy
  5. Burkitt's tumour
3. Short questions (any six ) 06
  - a. Define ulcer.
  - b. Organism producing TB.
  - c. Define Dislocation.
  - d. Mention nine quadrant of anterior abdo. Wall.
  - e. Branches of 7<sup>th</sup> cranial nerve.
  - f. Full form of AIDS.
  - g. Define fistula.
  - h. Organism causing Actinomycosis.

Oct - Dec - 2014  
Preliminary Exam  
GENERAL SURGERY**

Total Marks : 100

**SECTION-I**

- Q-1 Define General principals of FRACTURE, its complications and Treatment ? 14
- Q-2 Short Notes (Any Five) 25
- (1) Ulcer ?
  - (2) Gangrene in details ?
  - (3) Neuropraxia ?
  - (4) Tetanus ?
  - (5) Define wound and its Classification ?
  - (6) Sialolithiasis
- Q-3 Short Questions 11
- (1) AIDS ?
  - (2) Boil ?
  - (3) Define Toxemia ?
  - (4) Pyonychia ?
  - (5) Organism producing Actinomycosis ?

[P.T.O.]

- (6) Define Septicemia ?
- (7) Define Axonotmesis ?
- (8) Varicose Vein define.
- (9) Name any three chemical sterilization agents.
- (10) Hemophilia is Caused by following deficiency.
- (11) Organism producing Tetanus

## SECTION-II

Q-4 Long Essay

14

Describe 'TRACHEOSTOMY' ? Its Indications procedure, complication ?

Q-5 Short Notes (Any Five)

25

- (1) Autoclave ?
- (2) Facial nerve palsy ?
- (3) Cancrum Oris ?
- (4) Haemorrhage in details ?
- (5) Ludwig's angina ?
- (6) Trigeminal nerve and neuralgia.
- (7) Prevention and precaution for HIV and HEPATITIS ?

- (1) Name all branches of facial nerves ?
- (2) Cold abcess ?
- (3) Define Fistula ?
- (4) Define an Abscess ?
- (5) Organism producing Gonorrhea \_\_\_\_\_
- (6) Organism producing syphilis \_\_\_\_\_
- (7) Trigeminal neuralgia is also known as \_\_\_\_\_

- Q-1 Long Essay 14  
Describe 'TRACHEOSTOMY' ? Indications procedure, complication and care of its in details ?
- Q-2 Short Notes (Any Five) 25
- (1) Trigeminal nerve and neuralgia
  - (2) Facial nerve palsy ?
  - (3) Autoclave ?
  - (4) Cancrum Oris ?
  - (5) Ludwig's angina ?
  - (6) Prevention and precaution for HIV and HEPATITIS ?
  - (7) Haemeorrhage in details ?
- Q-3 Short Questions 11
- (1) Trigeminal neuralgia is also known as \_\_\_\_\_
  - (2) Name 8<sup>th</sup> criminal nerves \_\_\_\_\_
  - (3) Name all branches of facial nerves ? \_\_\_\_\_
  - (4) Organism producing Gonorrhea \_\_\_\_\_
  - (5) Organism producing Tuberculosis \_\_\_\_\_
  - (6) Organism producing syphilis \_\_\_\_\_
  - (7) Cold abscess ?
  - (8) Define sinus ?
  - (9) Define Fistula ?
  - (10) Define Cyst ?

## SECTION : II

Q-4 Define General principals of fracture its complications and Treatment ? 14

Q-5 Short Notes (Any Five) 25

- (1) Neuropraxia ?
- (2) Sialolithiasis
- (3) Gangrene in detail ?
- (4) Define wound and its Classification ?
- (5) Tetanus
- (6) Ulcer

Q-6 Short Questions

11

- (1) Define Toxemia ?
- (2) Define Septicemia ?
- (3) Define Axonotmesis ?
- (4) Boil ?
- (5) Pyonychia ?
- (6) Organism producing Actinomycosis \_\_\_\_\_
- (7) AIDS ?
- (8) Hemophilia is Caused by following deficiency \_\_\_\_\_
- (9) Name any three chemical sterilization agents.
- (10) Organism producing Tetanus \_\_\_\_\_
- (11) varicose Vein define.

---

**SECTION - I**

- Q-1 Define ULCER ? Types of Ulcers ? Treatment of Marjolin's Ulcer ? 20
- Q-2 Short Notes (Any Three) 18
- (A) Describe Axonotmesis ? its treatment.
- (B) Describe facial nerve and palsy ?
- (C) Describe classification of cysts ?
- (D) Define LIPOMA and clinical classification ?
- (E) Describe Trigeminal Neuralgia ? Treatment ?
- Q-3 Answer in Short. 12
- (A) Define sinus ?
- (B) Define Boil ?
- (C) Define Fistula ?
- (D) Name all cranial nerves ?
- (E) Describe "Sialography".
- (F) Define Pyelonychia ?

**SECTION – II**

- Q-4 Describe Indications, procedure and complications of "TRACHEOSTOMY" ? 20

Continue..

Q-5 Short Note (Any Three).

18

- (A) Describe Types of Amputations ?
- (B) Describe Complication of Amputation ?
- (C) Describe Actinomycosis and Treatment ?
- (D) Gonorrhea and its treatment ?
- (E) Describe CANCRUM ORIS ?

Q-6 Answer in Short

12

- (A) Organism Producing "SYPHILLIS" ?
- (B) Organism Producing "TUBERCULOSIS" ?
- (C) Define An ABCCESS ?
- (D) Define Lymphedema ?
- (E) Define Wound ?
- (F) Name Organism producing "TETANUS" ?

**SECTION : I**

Q-1 Describe Burns in details and tretment of 30% burns of male 25 years old with 50 kg weight ?

20

Q-2 Short Notes (Any Three)

18

- (A) Anomalies of development of face types of cleft lip ?
- (B) Anatomy of thyroid gland ?
- (C) Wound Healing in detail ?
- (D) Pre-malignent condition of skin ?
- (E) Treatment of cold abcess ?

Q-3 Short Questions

12

- (1) Name all cramial nerves ?
- (2) Define cyst ?
- (3) What is Anti-D in blood grouping ?
- (4) Define Fistula ?
- (5) Organism producing syphilis ?
- (6) What is Boil ?

## SECTION : II

Q-4 Describe ulcer – its classification and treatment of varicose ulcer ? 20

Q-5 Short Notes (Any Three) 18

(A) Wound its classification ? Treatment ?

(B) Trigeminal neuralgia in detail ?

(C) Tetanus toxoid in detail ?

(D) Tracheostomy operative procedure ?

(E) Define Neurotmesis in detail ?

Q-6 Define Haemorrhage ?

12

(1) Define Haemorrhage ?

(2) Define Shock ?

(3) Define Sinus ?

(4) Organism producing Actinomycosis ?

(5) Define subluxation ?

(6) Define Dislocation of joint ?

----- ALL THE BEST -----

SECTION - I

(20)

1 Define Haemorrhage & its type  
and treatment of it in detail?

2 SHORT NOTES (ANY THREE)

(18)

(A) Describe Facial palsy and  
its Treatment?

(B) Describe Neuroplexia and  
its treatment in detail?

(C) Describe Trigeminal Neuralgia?  
its treatment in detail?

(D) Prevention and precautions  
of spreading HIV and HEPATITIS?

(E) Actinomyces in detail with  
its treatment? → (12)

3 short answers

(A) Define boil? Abscess?

(B) Define "cold abscess"?

(10)

(C) Name all ~~cranial~~  
cranial nerves? (2)

(D) Organisms producing Syphilis?  
and Gonorrhoea?

(E) Define sinus & Fistula?

## SECTION - II

Q. 4: Define shock & its type? (20)  
Treatment of Anaphylactic shock?

Q. 5: SHORT NOTES (ANY THREE) (18)

- (A) Define wound? its type?
- (B) Carcinoma oris? In detail?
- (C) Describe in detail  $\rightarrow$  TETANUS and its treatment?
- (D) Describe Gangrene? its treatment.
- (E) Indication, procedure and complications of "TRACHEOSTOMY"?

Q. 6: SHORT ANSWERS? (12)

- (A) Define Septicemia?

(P.T.O.)

- (B) Define Appendicitis? (3)
- (C) ~~Define~~ Nine Quadrants of Anterior Abdominal wall?
- (D) Describe Pyomyositis?
- (E) Define LIPOMA?
- (F) Describe "SABOCCUS CYST"?

ALL THE BEST.
